ABSTRACT

This report , Volume II of a 2-part presentation, covers salaries paid in 1970-71 to full-time central office personnel. The data are presented in summary form for the various categories of personnel in the reporting systems grouped by enrollment, and for these systems individually. Also presented are national estimates of the salaries paid the various groups of personnel and the number of full-time professional employees classified by sex. Volume I is cited under EA 003 774. ## FOREWORD

THIS REPORT, presented in two volumes, is the 25th Biennial Salary Survey made by the NEA Research Division in the continuous and concentrated effort of the National Education Association to improve teacher salaries. Volume I covers salaries paid in 1970-71 to full-time public-school teachers, principals, and other members of the instructional staff; Volume II covers salaries paid central-office personnel. For complete information on salaries paid full-time professional employees in public school systems, both volumes are essential.

The data are presented in summary form for the various categories of personnel in the reporting systems grouped by enrollment, and for these systems individually. Also presented are national estimates of the salaries paid the various groups of personnel.

A new aspect of this report is the number of full-time professional personnel in both the instructional staff and central-office positions shown by sex. These data provide means of comparing the proportions of various positions filled by men and by women.

The 1970-71 Biennial Salary Survey was made under the direction of Gertrude N. Stieber, Senior Professional Associate, with the assistance of the staff of the Statistics Section of the NEA Research Division.

The Division is grateful for the help provided by administrators of the cooperating school systems who provided the mass of detailed information necessary for this study. Special thanks are due the State Departments of Education of Mississippi, New York, and Pennsylvania which supplied data for most of the school systems of these states which are included in the study.

Glen Robinson
Director, Research Division

# I. INTRODUCTION

THIS STUDY, undertaken biennially by the NEA Research Division, is the 25th in a continuing series of comprehensive reports on salaries paid full-time professional staff members of public-school systems. The results of the survey are contained in two volumes: Volume I comprises data on salaries paid in 1970-71 to teachers and to other members of the instructional staff; Volume II covers similar information for superintendents and other members of the central-office administration.

An estimate of the total number of persons employed full time in various instructional staff and central-office positions by sex is also included. This is the first time that information on the number of professional employees classified by sex has been incorporated into the survey. Salary distributions on the basis of sex are not included, however, but such a distribution may be attempted in a later study.

*National estimates* of mean and median salaries, and salary distributions for superintendents, assistant superintendents, and other central-office administrative and supervisory positions are included in Vol. II. In addition, detailed salary data are shown for these same positions for reporting systems with enrollments of 12,000 or more. These data consist of summary tabulations showing mean, median, and salary distributions as well as system-by-system listings of the data for each reporting system with an enrollment of 12,000 or more.

An analysis of salary *schedule* information is made annually by the NEA Research Division, and three major research reports are published—two annually and one on a biennial basis.[1] The salary schedule studies report minimum and maximum salaries for teachers and principals, and maximum salaries for other members of the instructional staff and for the major central-office positions.

## Scope of Study

Salary data for all of the approximately 17,153 school systems operating in 1970-71 are incorporated into the biennial salary survey. A comprehensive questionnaire was sent to each of the 578 systems with enrollments of 12,000 or more, and to a representative sample of the estimated 16,575 systems with enrollments of less than 12,000. Table 1 shows the distribution of school systems to which questionnaires were sent, and the number and percent of those queried which furnished at least some usable salary data.

Enrollment stratification is based on a list of operating districts originally obtained from the U.S. Bureau of the Census, which gave enrollment information, for the most part as of October 1966. The NEA Research Division in its questionnaire requested enrollment data for October 1970.

For purposes of arriving at nationwide summary data, school systems in the nine enrollment strata into which operating school systems are divided, have been combined into the four major enrollment groups shown in Table 1. The four groups have been designated as follows:

A. Large systems—enrollment 25,000 or more (Strata 1-3)
B. Medium systems—enrollment 3,000-24,999 (Strata 4-6)
C. Small systems—enrollment 300-2,999 (Strata 7 and 8)
D. Very small systems—enrollment below 300 (Strata 9 and 10).

## Procedure in Collecting and Handling Data

Salary inquiries were sent to *all* operating systems with enrollments of 12,000 or more (Strata 1 to 4), and all of these districts which reported usable data for one or more positions are included in the system-by-system listings which appear in Volume I for instructional staff positions and in Volume II for central-office administrators.

For school systems with fewer than 12,000 pupils, systematized random sampling was used in selecting those to receive the salary questionnaire. Table 1 reports the sampling ratios used.

All of the 578 districts with enrollments of 12,000 or more were queried, and 452 usable replies are included in the system-by-system data. However, to make up the Group B systems for national estimates (see Table 1) a subsample of the appropriate size was drawn from the replies in Stratum 4 (enrollment 12,000 to 24,999) and added to the replies from the sample of Strata 5 and 6 districts (enrollments 6,000 to 11,999 and 3,000 to 5,999, respectively.

Salaries paid teachers and other members of the instructional staff were obtained on the basis of specified salary intervals, and means and medians were prepared from the grouped salary distributions.

The information requested on salaries of all central-office personnel was for the individual salary amounts paid to each person in each position. For example, if a school system employs five assistant superintendents, the individual salary paid to each of the five assistant superintendents was requested. Summary tables were prepared for central-office personnel by computing actual means and medians from the ungrouped raw salary data.

**Number of Public-School Employees Included**

Table 3 shows, among other things, that the 192 systems with enrollments of 25,000 or more, accounted for only 1.1 percent of the total operating public school systems in 1970-71, but that these districts employed 27.8 percent of all full-time teachers.

At the other extreme, the estimated 5,435 operating districts with enrollments of under 300 each, account for 31.7 percent of all operating systems, but employ only 2.5 percent of all teachers.

Similar percent distributions by size of school system are shown in Table 3 for elementary-school principals, superintendents, and other professional staff positions.

The concentration of principals at the elementary-school level follows fairly closely the distribution of teachers. On the other hand, only 13.2 percent of the senior high-school principals are employed in systems with enrollments of 25,000 or more; in this group of districts high schools tend to be very large, and many teachers may report to one principal.

Table 3 also shows that the concentration of of local-district superintendents is greatest in Group C, which accounts for 59.4 percent of all superintendents. This is understandable since 8,537, or 49.8 percent, of all operating systems are in this enrollment group. Only 1.3 percent of all superintendents are working in the large Group A districts.

Even though 31.7 percent of all operating systems are in Group D (enrollment under 300), only 18.5 percent of all superintendents are employed by this group of systems. Many of these systems are administered by a county or intermediate superintendent even though they are classified as separate operating school systems.

Only a few central-office administrators (other than the superintendent) are found in the smallest school systems. This is understandable since the administrative functions in these systems usually are performed by the superintendent with no professional assistance.

**Number of Professional Employees Classified By Sex**

Of the estimated 2,034,581 full-time teachers in 1970-71, 1,366,830, or 67.2 percent, were women. However, of the 70,259 supervising principals, only 10,765, or 15.3 percent, were women. Almost the same ratio of men to women was found for assistant principals. Only 19.4 percent of the estimated number of elementary-school principals and only 3.0 percent of the senior high-school principals were women. (Table 3-A)

For other instructional staff positions shown in Table 3-A, heads of departments, with 69.2 percent men, and counselors, with 53.1 percent men, were the only ones in which the number of men exceeded the number of women employees. As would be expected, 99.2 percent of all school nurses were women, and 91.4 percent of the school librarians also were women. Men accounted for 45.9 percent of the psychologists and psychometrists and for 41.7 percent of the positions which were not reported by functional title.

For the total instructional staff, comprising teachers, principals, and other full-time professional positions in individual schools, 782,471, or 35.0 percent of the estimated 2,236,906 persons, were men, and 1,454,435, or 65.0 percent were women.

Of the total estimated 65,306 central-office administrators in 1970-71, 48,391, or 74.1 percent, were men and 25.9 percent were women. Of the central-office categories shown in Table 3-A, men accounted for 99.4 percent of all superintendents. Of the 10,414 administrators for general administration, women held 48.2 percent of the positions included in this category, largely in the area of elementary education. Women held 38.3 percent of

the administrative positions in the area of pupil personnel services.

For the total estimated full-time professional staff of all schools, 830,862, or 36.1 percent, were men, and 1,471,350, or 63.9 percent, were women.

Women dominate the professional staff of public schools because of the preponderance of women teachers, nurses, and librarians. These three groups accounted for 1,410,442, or 95.9 percent of all professional women employed in pbulic school systems in 1970-71.

Men far exceed women in the authority positions such as principals, superintendents, deputy, associate, and assistant superintendents, and in other central-office administrative areas. Of the total 158,864 in this group in 1970-71, only 31,186, or 19.6 percent, were women.

TABLE 1.—DISTRIBUTION OF PUBLIC SCHOOL SYSTEMS INCLUDED IN NATIONAL SURVEY, BY ENROLLMENT GROUPING[a]

| Enrollment grouping | Estimated total number of operating school systems, 1970-71 | Systems to which inquiry was sent | | Systems reporting usable salary data | |
|---|---|---|---|---|---|
| | | Number | Percent of total | Number | Percent of those queried |
| 1 | 2 | 3 | 4 | 5 | 6 |
| Group A—Large systems, enrollment 25,000 or more (Strata 1, 2, and 3) | 192 | 192 | 100.0% | 160 | 83.3% |
| Group B—Medium systems, enrollment 3,000 to 24,999 (Strata 4, 5, and 6) | 2,989 | 374[b] | 12.5 | 300[b] | 80.2 |
| Group C—Small systems, enrollment 300 to 2,999 (Strata 7 and 8) | 8,537 | 356 | 4.2 | 292 | 82.0 |
| Group D—Very small systems, enrollment below 300 (Stratum 9) | 5,435 | 350 | 6.4 | 243 | 69.4 |
| Total—all systems | 17,153 | 1,272 | 7.4% | 995 | 78.2% |

[a]The enrollment grouping shown here was derived by the NEA Research Division from the basic stratification of operating districts originally obtained from the U.S. Bureau of the Census. Enrollment figures are for October 1970.

All estimated national averages and distributions shown in this report are computed on the basis of this grouping. Summary data for this group are shown in Tables 5-49 of Vol. 1 and Tables 5-33A of Vol. 2.

[b]Salary inquiries were sent to each of the 386 operating school systems with enrollments of 12,000 to 24,999 for purposes of the individual listing of systems with enrollments of 12,000 or more. Usable salary data were received from 292, or 75.6 percent of the total. To report national averages for medium-size districts as a group, a random sample of 48 districts in Stratum 4 (enrollment 12,000-24,999) was selected to combine in the proper proportion with the sampling made of districts in Strata 5 and 6 (enrollments of 3,000 to 5,999, and 6,000 to 11,999). This sample comprises Group B.

TABLE 2.—DISTRIBUTION OF PUBLIC SCHOOL SYSTEMS WITH ENROLLMENTS OF 12,000 OR MORE[a] INCLUDED IN SUMMARY

| Enrollment stratum | Total number of operating systems[b] | Systems reporting usable data | |
|---|---|---|---|
| | | Number | Percent of total |
| 1 | 2 | 3 | 4 |
| Stratum 1—enrollment 100,000 or more | 27 | 24 | 88.9% |
| Stratum 2—enrollment 50,000-99,999 | 56 | 45 | 80.4 |
| Stratum 3—enrollment 25,000-49,999 | 109 | 91 | 83.5 |
| Stratum 4—enrollment 12,000-24,999 | 386 | 292 | 75.6 |
| Total—all systems with enrollments of 12,000 or more | 578 | 452 | 78.2% |

[a] Systems for which data are shown on a system-by-system basis in Tables 35-49 of Vol. 1 and Tables 28-33A in Vol. 2.

[b] Questionnaire was sent to each of the 578 systems.

a/ Comprises staff personnel, research, food services, health services, pupil transportation, community relations, publications and/or information, and federal and/or state grants and aids.

b/ Comprises general finance, purchasing, accounting and auditing, data processing, buildings - operation and maintenance, and buildings - planning and construction.

c/ Comprises general personnel, attendance, guidance and testing, psychological and psychiatric services, and programs for the disadvantaged.

d/ Comprises general, elementary education, secondary education, adult education, special education, library services, instructional materials, and audiovisual education.

e/ Comprises art, home economics, industrial arts, music, physical and health education, vocational education, mathematics and/or science, English and/or reading, foreign languages, social sciences, and other.

## II. NATIONAL ESTIMATES OF SALARIES PAID CENTRAL-OFFICE ADMINISTRATORS, 1970-71

AS SHOWN IN TABLE 5, the estimated national average salary paid school superintendents in 1970-71 was $17,680, which is 16.8 percent higher than the average of $15,131 paid in 1968-69. Only 4.7 percent of the total 14,379 superintendents received less than $10,000 in 1970-71, and 2.5 percent received $30,000 or more.

Among the 192 large school systems (enrollments of 25,000 or more) no superintendent received less than $18,000, and 68.9 percent received $30,000 or over. Among the small Group D districts (enrollments below 300) no superintendent received as much as $20,000.

Tables 5 through 8 show national estimates of mean and median salaries paid and salary distributions by enrollment groupings for superintendents, deputy and associate superintendents, assistant superintendents, and administrative assistants to the superintendent.

National estimates of mean and median salaries paid and salary distributions by enrollment groupings are shown for five major groups of central-office positions in Tables 9 through 13. As would be expected, except for the superintendent, there are very few central-office administrators in the small systems. Supervisory functions of these districts are performed by the superintendent or other administrative head of the system.

National estimates of mean salaries paid in 1970-71 to the major groups of central-office administrators are shown below by enrollment strata.

| Position | Average salary paid by enrollment group | | | | |
|---|---|---|---|---|---|
| | Total—national estimate | A—25,000 or more | B—3,000-24,999 | C—300-2,999 | D—Below 300 |
| Superintendent | $17,680 | $32,158 | $23,108 | $16,861 | $12,342 |
| Deputy or associate superintendent | 21,100 | 26,100 | 19,561 | 14,563 | ... |
| Assistant superintendent | 19,054 | 20,908 | 19,237 | 15,186 | 12,100 |
| Administrative assistant to the superintendent | 15,408 | 19,386 | 15,838 | 13,121 | ... |
| Administrators for general administration | 12,336 | 15,304 | 12,095 | 8,885 | 9,400 |
| Administrators for finance and school plant | 12,806 | 15,099 | 13,299 | 9,301 | 6,319 |
| Administrators for pupil personnel services | 13,424 | 15,116 | 13,493 | 11,246 | 8,742 |
| Administrators for instruction | 14,851 | 16,466 | 14,646 | 12,859 | 8,375 |
| Supervisors of special subject areas | 13,986 | 15,861 | 13,811 | 11,348 | 7,829 |
| Average—all central-office | $14,962 | $16,393 | $15,248 | $13,794 | $11,165 |

## III. SALARIES PAID IN 1970-71 TO CENTRAL-OFFICE ADMINISTRATORS, SCHOOL SYSTEMS WITH ENROLLMENTS OF 12,000 OR MORE

AS INDICATED EARLIER, salary information was requested from each of the 578 operating systems with enrollments of 12,000 or more, and usable replies were received from 452, or 78.2 percent. Not all of the 452 systems furnished data for each position listed and summarized, but each of them furnished some usable salary information in one or more areas of the study.

Salaries paid superintendents, deputy and associate superintendents, assistant superintendents, and other central-office administrators and supervisors are shown in this volume (Vol. II) of the report both in the form of summary tabulations and as system-by-system listings of those districts which reported salary data.

Tables 14 through 27 summarize the data which appear in the individual listing of reporting systems in Tables 28 through 33.

Table 28 lists, system-by-system, actual salaries paid superintendents, deputy or associate and assistant superintendents, and administrative assistants to the superintendents, for all reporting systems with enrollments of 12,000 or more which furnished usable data for these positions.

Tables 14, 15, 16, and 16-A summarize the information given in the listing in Table 28 for each of the four enrollment strata included. As would be expected, salaries paid to superintendents, deputy, associate, and assistant superintendents are considerably higher in the largest systems (Stratum 1) and decrease somewhat for each of the three smaller strata included. A summary of the functional assignments of associate and assistant superintendents is shown in Table 27.

Salaries paid other central-office administrators are shown system-by-system in Tables 29 through 33 and in summary form in Tables 17 through 26.

Tables 17 and 18 give means, medians, quartiles, and salary distributions for central-office administrators for general administration. The positions which occurred frequently enough to justify computation are listed. These are administrative officers for staff personnel, research, food services, health services, pupil transportation, community relations, publications and/or information, and federal or state grants and aids.

Tables 19 and 20 give distributions of salaries paid to administrators for finance, business, and school plant for reporting systems in each of the four enrollment strata. Among the large districts the most frequently occurring positions in this area are general finance and business, purchasing, accounting and auditing, data processing, building operation and maintenance, and building planning and construction.

Central-office administrators for pupil personnel services are listed by reporting systems in Table 31 and summarized in Tables 21 and 22.

These positions have been classified into general services, attendance, guidance and testing, psychological and psychiatric services, and programs for the disadvantaged. Not all reporting systems with enrollments of 12,000 or more report all of these positions, but the functions usually are performed by one or more officers assigned to this general area of responsibility.

A system-by-system listing of salaries paid officers for instructional administration and supervision is shown in Table 32 with the data summarized in Tables 23 and 24. Salary information has been tabulated in this area for administrators and supervisors in general instruction and curriculum, elementary education, secondary education, adult education, library services, and instructional materials and audiovisual education.

Administrators and central-office supervisors for special subject areas are listed by reporting systems in Table 33 and summarized in Tables 25 and 26. These are *central-office* personnel; teachers and supervisors assigned to individual buildings are excluded. In some cases it was necessary to make an arbitrary decision as to which of the reported officers to include as central-office administrators or supervisors as distinguished from staff assigned to instructional services in separate school buildings.

The subject areas most frequently reported and included here are art, home economics,

industrial arts, music, physical and health education, vocational education, mathematics, science, English and reading, social sciences, and foreign languages. Other special areas frequently were mentioned, but none of them in sufficient numbers to justify tabulation of means and medians and the like, and, therefore, they were not included in the report.

Mean salaries paid in 1970-71 to central-office positions shown in the summary tables are shown in Table A by enrollment strata for reporting systems with enrollments of 12,000 or more.

TABLE A.—MEAN SALARIES PAID CENTRAL-OFFICE ADMINISTRATORS, 1970-71
Reporting Systems With Enrollments of 12,000 or More

| Position | Mean salary by enrollment stratum | | | | |
|---|---|---|---|---|---|
| | 1—100,000 or more | 2—50,000-99,999 | 3—25,000-49,999 | 4—12,000-24,999 | Total, Strata 1-4 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| Superintendents | $39,174 | $32,614 | $30,264 | $27,326 | $29,102 |
| Deputy or associate superintendents | 28,283 | 24,260 | 23,765 | 22,323 | 24,924 |
| Assistant superintendents | 25,186 | 22,102 | 22,137 | 21,122 | 22,197 |
| Administrative assistants to the superintendent | 18,846 | 19,265 | 18,792 | 17,707 | 18,323 |
| Administrators for general administration: | 17,406 | 15,150 | 15,023 | 13,756 | 15,235 |
| Staff personnel | 17,659 | 16,583 | 17,731 | 17,699 | 17,462 |
| Research | 17,546 | 16,115 | 18,205 | 16,182 | 16,996 |
| Food services | 15,451 | 13,445 | 12,390 | 11,048 | 12,622 |
